INTRODUCTION

REPORTING PERIOD

This report contains statistics of taxable sales and taxable purchases made during the third quarter of 2000 and sales and use tax collections received during the third quarter of 2000.

The taxable sales and taxable purchases are provided by businesses to the Office of State Tax Commissioner on quarterly or monthly returns.

Tax collections are the amounts actually received by the Office of State Tax Commissioner in the third quarter. The major portion of these collections was paid with quarterly returns on taxable sales and taxable purchases made in the second quarter of 2000 and collections paid with monthly returns on taxable sales and taxable purchases made in May, June, July and August of 2000. (Additional payments on August 2000 taxable sales and purchases will have been received after September, and will be reported as collections in the fourth quarter of 2000).

COMPARISONS

Tables 2 and 5 compare both taxable sales and taxable sales plus purchases reported for the current quarter with those reported for the same quarter in the prior year. The comparisons are by county on Table 2 and by major city on Table 5. (For an explanation of taxable sales, taxable purchases, or tax base, see the *Definition of Terms* section of this report).

Some data cannot be attributed to the county or city in which the sale or purchase was made, such as data from consolidated and out-of-state returns. This data is excluded from any particular county or city in the first six tables and is reported at the end of Tables 1 through 6.

All taxable sales and taxable purchases reported for the current quarter are compared to the same quarter in the prior year in Table 7. This table compares activity by industry in North Dakota. Some industries are characterized by a higher than normal amount of taxable purchases or by an unusually large number of out-of-state returns. Therefore, by including all returns and all taxable sales and taxable purchases, the comparisons in Table 7 more closely capture sales activity within a particular industry.

<u>Cautionary Note</u>. Caution is urged in drawing conclusions from comparisons made of individual county and city totals shown in this report. Statistics in this report are not necessarily a completely accurate measure of any particular level of economic activity in the state or in any county or city for any specific year. For example, businesses that deal only in exempt sales or services do not file sales tax returns and, therefore, their sales are not included in this report. A complete economic analysis should include other economic factors that are indicators of business activity, in addition to the sales statistics contained in this report.

DEFINITION OF TERMS

<u>Taxable Sales</u>. Taxable sales are gross sales less nontaxable sales. Businesses must remit sales tax on taxable sales.

<u>Taxable Purchases</u>. Taxable purchases are taxable goods purchased by businesses for their own use on which they did not pay sales tax to suppliers. Also included are purchases of goods to be installed

into real property by contractors who did not pay sales tax to suppliers. Businesses and contractors must pay use tax on these goods.

Tax Base. For the sales and use tax, the tax base is the sum of taxable sales and taxable purchases.

<u>Motor Vehicle Excise Tax.</u> The state of North Dakota does **not** impose a sales tax on the sales of new or used automobiles/trucks. Instead, sales of automobiles and trucks are subject to the Motor Vehicle Excise tax, which is functionally similar to the sales tax (the tax rates are the same under current law). Because the Motor Vehicle Excise tax is a separate and distinct tax and not part of the sales and use tax, the statistics in this report **do not** include any data on automobile sales or related tax collections.

<u>Consolidated</u>. Taxable sales, taxable purchases and tax collections from a limited number of permit holders are not accurately attributable to a city or county and are reported in a consolidated statewide line item at the end of Tables 1, 2, 3, 4, 5 and 6. The consolidated data is excluded from any particular city or county in the first six tables in order to avoid over-reporting for some cities and counties and under reporting for others. However, consolidated data is included in the industry comparisons in Table 7.

The consolidated data includes certain permit holders who have more than one permanent location or sales agent in North Dakota, but file a combined return. This primarily includes companies utilizing home based, direct sales people. In addition, some industries are, by nature, not attributable to cities or counties because their sales cover large geographical areas. Therefore, the following Standard Industrial Classification Codes (SIC Codes) per the 1987 Manual have been included in the consolidated statewide line item:

SIC CODES	BUSINESS ACTIVITY
1211	Bituminous coal and lignite mining
4811	Telephone communication
4821	Telegraph communication
4911	Electric services
4922	Natural gas transmission
4923	Gas transmission and distribution
4924	Natural gas distribution
4925	Gas production and/or distribution
4931	Electric and other services combined
4932	Gas and other services combined
4939	Combination and utility services
9999	One time filers (including border check collections
	and carnival collections)

<u>Out-of-State</u>. Taxable sales, taxable purchases and tax collections from permit holders who do not have a permanent location or sales agent in North Dakota are reported in a single line item at the bottom of Tables 1, 2, 3, 4, 5 and 6. This data is not accurately attributable to any particular city or county and it is omitted from all individual city and county figures. However, out-of-state data is included in the industry comparisons in Table 7.
